RULES FOR THE YANKEE SWAP

1, Each person who wants to participate brings a tagged hosta, whose identity is concealed somehow (entire hosta completely covered by a bag for instance or wrapped in paper).

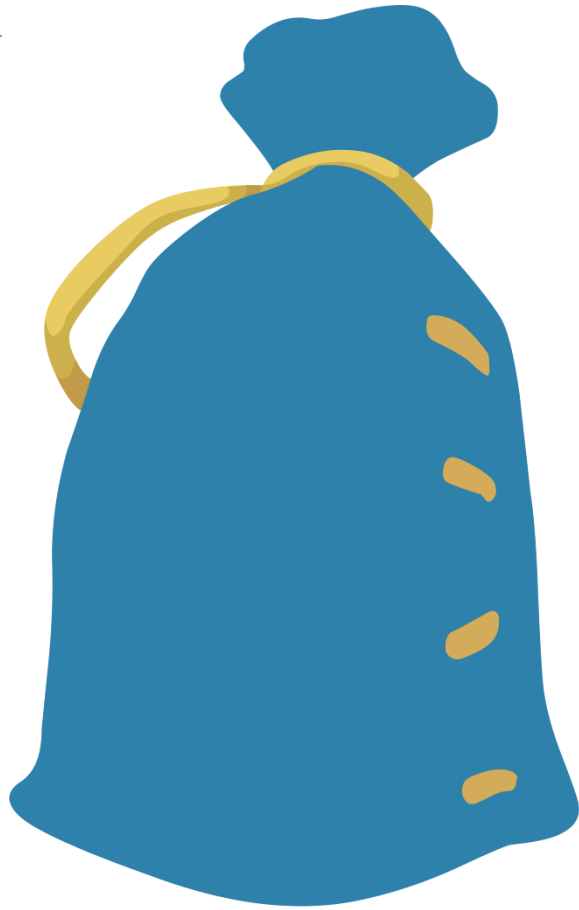

2, All concealed hostas are placed in a group together.

3. Everyone participating is given a number (from 1 to the number of people).

4. The person with #1 picks a hosta from the group and reveals its identity to everyone.

5. the next person with #2 (and then all following numbers one after the other) picks a hosta from the group, reveals its identity to everyone and then can either keep the hosta they pick or swap it out with someone else's hosta.

6. When the last number has gone, the person with @1 can either choose to keep their hosta or swap it out with anyone else, which ends the swap.

If you came last year, you know what hilarious fun this event can be. What better way to spend an August Afternoon?

Hosta Theme Gardens

Like you need any encouragement to buy more hosta...or plants, for that matter, but here are some great lists to create theme gardens.
